THE EMMAUS SERIES brings together John Thornhill's capacity to communicate his theological wisdom in accessible language, and Patrick Lim's gifts in the field of Information Technology.

THE EMMAUS SERIES can be an excellent follow-up to **ALPHA** and **CaFE**, for those who seek a deeper knowledge of our Catholic faith. It does not aim to replace these programs.

John Thornhill has had many years' experience speaking to grass roots groups in Australia and neighbouring countries. In 2001 Patrick Lim offered to work with him, making his presentations available to wider audiences. Their collaboration has now completed the projected series of 20 presentations. They range from basic themes such as "Jesus Christ Today" and "Why the Cross?" to more challenging themes such as "Vatican II: The first Council of Evangelisation" and "Conscience in Catholic Teaching" (see back page for complete list).

THE EMMAUS SERIES promises to make an important contribution to the life of the Australian Church, if the enthusiastic reception it has already received is any indication.

NOT JUST ANOTHER PROGRAM

THE EMMAUS SERIES is designed to meet the needs of the Australian Church: helping rank and file Catholics to find the inspiration they should in the vision of a renewed faith, and strengthening the faith community that will be so important for the life of the Church in the challenging years that lie ahead of us.
